About

Netta joined Gornitzky & Co. as a partner in 2022. Prior to joining the firm, Netta was a partner in a leading commercial law firm.

Technology Companies and Investments: Netta's main area of expertise is technology companies, from the start-up stages, representation in all the day-to-day operations of companies, and through investments and mergers and acquisitions. Netta represents technology companies in a wide range of fields, including cyber, life science, artificial intelligence, software, hardware, internet, communication and energy. She has many years of experience in structuring and negotiating commercial transactions, licensing agreements, joint ventures, development and commercialization of intellectual property agreements, strategic alliances, OEM, and other corporate partnering agreements.

Netta represents Israeli and international clients, and has extensive experience in representing investors, including in the establishment of venture capital funds, as well as representing private investors in all their activities.

Artificial intelligence: Netta leads Gornitzky's AI field. Netta represents artificial intelligence and augmented reality companies, and provides AI companies, as well as companies using AI technologies, with legal guidance in the rapidly evolving field of artificial intelligence (AI). From inception to implementation, Netta provides a comprehensive support at every stage of your AI journey, and remain at the forefront of the latest industry developments, emerging regulations, and ethical considerations surrounding artificial intelligence, all supported by a tailor made strategic guidance.

Merges and acquisition: Netta represents buyers, sellers and target technology companies and industrial companies in M&A transactions and has expertise and experience in a variety of cross border M&A transactions, from the negotiation of transaction documents, due diligence, and various other matters required to consummate mergers and acquisitions.
