

## Transportation

**Gornitzky's Transportation team is the first choice for leading transportation projects in Israel, and highly recognized for its track record of transactions in the transportation sector.**

Gornitzky provides fully integrated commercial services for our clients in the transportation industry, including legal and commercial advice and representation with respect to regulatory matters, the procurement of financing, and employment matters (including employment agreements, litigation, and collective bargaining negotiations).

Our clients list consists of the major transportation companies in Israel, which we represent on a regular basis in many diverse fields, such as: litigation, labor, corporate, and other aspects. Our firm also represents the largest companies of the automobile industry in Israel in a wide variety of legal matters.

Our Transportation team represents leading Israeli and international entities in large scale public tenders in the field of transportation, including tenders for the construction and operation of the Green Line of the Jerusalem Light Rail Transit Network, as well as tenders for the establishment operation of regional public bus networks throughout the country.

Gornitzky's footprint in a broad range of transactions demonstrates our firm's unique expertise and strengths in the Israeli transportation industry and our capacity to lead challenging and complex transactions in this field.
