Client Update: "The Startup Law" – Revision of the Israeli Communications Law – from Licensing Regime to Registration Regime

Client Updates

Lior Porat, managing partner, together with partner **Asaf Avtuvi**, senior associate **Anat Schnur Rabinovich** and associate **Rebecca Genis** review in this client update the amendment of the Israeli Communications Law which the Israeli parliament (the "Knesset") passed last month. The main purpose of the Amendment (which is also known as the "Startup Law") is to ease the regulatory burden and reduce entrance barriers to the Israeli telecoms market.
