Hosting a Group of Girls from the Beit Ruth Association

News

This week, we hosted a group of girls from the **Beit Ruth Association** at our office for a special and empowering experience. Beit Ruth is a therapeutic and educational village in Afula that provides a warm home and a safe place for at-risk girls in Israel, while providing them with the tools to integrate into society and build an independent and healthy future.

During the visit, the girls enjoyed lunch, met with **Adi Nahmias**, heard an inspiring lecture from **Shir Arviv** about her life story, and took part in intimate and open conversations with our **female partners, attorneys and administrative staff**.

We believe that alongside professionalism and legal excellence, we have a responsibility to contribute to the community and provide opportunities and tools for the next generation. It is a privilege to meet young women and girls with such tremendous inner strength, and to be a small part of their journey. Thank you to the Beit Ruth team for the partnership and for the meaningful work they do every day.
