Representation of Vertical City in a Construction Execution Transaction

News

Our firm represented **Vertical City**, owned by the Israel Canada, B.S.R., and Clal Insurance groups, in an execution agreement for the construction of Phase A of the 'Vertical City' project in Ramat Gan. The executing contractor is **BST Construction**. The transaction is valued at approximately **NIS 1.12 billion**. This is the largest development project in Israel, and this construction phase includes the erection of the first two towers, which will comprise 72 and 64 floors.
