Client Update: Is your company ready for an audit of the Israel Privacy Protection Authority?

Client Updates

By the end of 2018, audits are expected to be conducted at approximately 150 entities that manage personal data.

Adv. Assaf Harel, a partner who specializes in the field of Cyber-Security and Data Protection, in a client update (Hebrew), addressing the across-the-board enforcement-supervision system that has been set up by the Israel Privacy Protection Authority (PPA), which acts to identify violations of the Privacy Protection Law. The client update also contains an example of a questionnaire used by the PPA in such audits.
